

FIRST BAPTIST CHURCH

February 18, 2010

Dear Life Group Friends,

Here are a few ministry tools to help you prepare for your next small life lesson. The focus of this week's questions is the feeding of the 5,000 in Luke chapter 9. John MacArthur's message should bring several key points to light. I hope you enjoy it. In addition to the audio study helps, be sure to read this week's coaching tip, which includes an icebreaker to get your small group started, a short article to help you maintain a healthy diet in the food you provide for your life group members, and even a suggestion of how your group can work together to reach to newcomers to your neighborhoods.

Please take advantage of these great tools.

Let me remind you again that we're here to help you however we can - choosing curriculum, praying for the needs of your members, helping you solve problems in your group. Feel free to contact us if we can be of assistance to you. You are important to us!

Grateful for you,

Pastors Gary and Glen
