

FIRST BAPTIST CHURCH

March 19, 2009

Dear Friends,

The questions and other materials for our life groups are ready for you now. Please pay special attention to the coaching tip this week. It's a vital article on the topic of how to help group members facing financial needs. This is going to become an even bigger issue in the weeks ahead, if you aren't already facing it in your small group. How much should you realistically do to help one of your group members with a financial need? If you can't meet the need, how do you ministry to them spiritually and help them accept the fact that you can't give them more financial help? We've faced it in our group in the past, and you will likely face it in your group at some point in the future. I hope it's helpful to you. And as always, if there's any way we can be service to you, please let us know.

We're praying for you,

Pastors Gary and Glen
