

Hi life group leaders:

We are making a slight change this week. We originally planned to return to our study of the book of Luke. However, with the potential of affirming new Elders and appointing Deacons ahead of us, we have decided to spend a few weeks examining what the bible says about spiritual leadership. This week will be an introduction about church leadership. To help you prepare we have included a study by John MacArthur. The coaching tip addresses the issue of how to develop new leaders in your small group. We hope both of these will be helpful to you. Thank you for your faithful leadership.

Pastors Gary and Glen.
